

Jennifer Beaver

Full Stack Software Engineer

EXPERIENCE

Full Stack / Front-End Engineer

Drum Channel

Aug 2023 - Present - LA, CA

- Developed and maintained scalable full stack web applications for a music education platform supporting 130K+ global users
- Built responsive dashboard systems integrating membership platforms, course APIs, analytics services, and CMS-driven content
- Designed and implemented interactive user experiences using JavaScript, PHP, REST APIs, HTML5, CSS3, and responsive UI principles
- Owned projects through the full development lifecycle including technical planning, implementation, QA, deployment, optimization, and maintenance
- Collaborated cross-functionally with engineering, product, marketing, and design teams to deliver production-ready web features

Front-End Developer

Apple, Agavos Group, Visual Studio Engineer

Feb 2023 - Oct 2023 - LA, CA

- Developed responsive enterprise web applications for Apple TV+ and reusable front-end component systems using React
- Assisted in implementing scalable front-end architecture integrated with CMS platforms and backend services
- Improved CI/CD deployment workflows and contributed to ongoing platform enhancements and maintenance with Airtable and Git

Software Engineer

First Republic Bank, ImForza

May 2022 - Oct 2022 - San Francisco, CA

- Maintained and improved legacy internal web systems and dashboards for TMTS
- Integrated REST APIs and backend data services into responsive Angular applications
- Assisted with CMS migrations and database-driven platform improvements

UI / Software Engineer

Antares Audio Technologies (Auto-Tune)

Aug 2021 - April 2022 - San Francisco, CA

- Developed Vue.js applications integrating backend services and API endpoints for dunning
- Assisted with implementation of responsive e-commerce web experiences supporting global product launches
- Collaborated on production deployments, bug fixes, and feature enhancements across customer-facing applications

EDUCATION

Machine Learning Certification, University of California, San Diego 2025-2026,
San Diego, CA

Full Stack Software Engineering Certification, Flatiron School, 2021, Remote

B.A. Music Performance, UCSC, 2016, Santa Cruz

+1 (805) 794-4313

San Diego, CA

Languages & Frameworks

JavaScript (ES6+),
TypeScript, HTML5, CSS3,
PHP, React, Vue.js,
AngularJS, Node.js

Front-End Engineering

Responsive web design,
cross-browser compatibility,
UI/UX implementation,
accessibility (WCAG 2.1
AA), component
architecture, Tailwind CSS,
Bootstrap

Backend & Data

REST APIs, API
integrations, backend
service communication,
JSON data modeling, CMS
architecture, PHP-based
systems

DevOps & Infrastructure

MySQL, Git, CI/CD
pipelines, deployment
workflows, QA testing,
performance optimization
